Once you have the Adobe Digital Editions loaded to your computer -- follow the steps include in this document to transfer your eBooks to your Kobo device.

Detailed instructions are located on Page 2 of this PDF >>

Quick Steps

Transfer your Opus eBooks to your Kobo devices:

- Turn on your Kobo eReader.

- Connect your eReader to your computer using a Micro USB cable.

- On your Kobo eReader >> Tap **Connect**.

- On your computer >> Open *Adobe Digital Editions*.

- In *Adobe Digital Editions* > Under **Devices**, right-click on **Kobo eReader**.

- Click **Authorize Device**.
      Tip: If you don't see 'Kobo eReader' under Devices, close Adobe Digital Editions, then open it again.

- Click **Authorize Device**.

- Click **OK** at the confirmation screen.

- Click on **File** at the top of the screen.

- Click **Add to Library**. A browse window will appear.

- Browse for the epub file:
      On a PC: *Click the "eBooks" drop-down menu and select > Adobe Content Server Message.*
      On a Mac: *Click Options, then click epub files.*

- Select the **epub file**, then click **Add**. The book will open.

- Click **Library** at the top-left corner of the screen to go back to the *Adobe Digital Editions* home screen.

- Click **All items**.

- Select your new book and drag it to the Kobo eReader bookshelf (listed on the left side under **Devices**).

- Eject your Kobo and unplug the Micro USB cable from your Kobo. The book will appear in your **Library**.

- To see the books you added, go to the **My Books** menu on your Kobo eReader.

- Tap **Filter** at the top of the screen, then select **Imported**.

- You'll see all the items you've added with *Adobe Digital Editions*.
